(April 7, 2004- TROY)- The City of Troy will train 16 employees on the use of an emergency defibrillator from 2 to 4 p.m. on THIS AFTERNOON.

The training will take place in the City Council chambers on the second floor of City Hall for the employees. There are currently five sets of defibrillator's in the City, one each in City Hall, the Police Department, the Water Department, Frear Park Golf Course, and Knickerbacker Ice Rink.

"Having these defibrillator's on hand in case of an emergency is very important," Mayor Harry Tutunjian said. "And having our employees trained to use them in case of that emergency is just as important as having them. This training will help ensure an added layer of safety to the general public and the people who work for the City of Troy."

All members of the media are encouraged to attend the training.
